CLASS DESCRIPTIONS:

1. Classical Ballet / Neo-Classical Ballet

Any piece coming from recognized Ballet Repertoire. In the student repertoire solos, the teachers are allowed to slightly simplify the variations to fit the technical level of the children. **Neo-Classical Ballet** is a 20th century style that takes from its Russian predecessor and uses traditional **Ballet** vocabulary but is less rigid than Classical **Ballet**. You must show strong ballet technique and lines.

2. Jazz / Lyrical

There are many ways that **Jazz** can be presented which are described below as a guideline. All Jazz dance pieces must show a clear understanding and creative expression that is informed and inspired from the differing genres and styles under the Jazz dance umbrella. Other dance forms and styles must not override the Jazz dance elements and techniques required specifically for Jazz. The techniques for this genre are very clearly stated and are required for fair and honest judging.

Please note: ACRO dance and gymnastic tricks do not substitute for Jazz technique or choreography. If the choreography is using acrobatic elements, the acrobatic movements must be integral to the main delivery of Jazz choreography and have a real relevance to the dance narrative and construction of the piece.

Lyrical Dance is a dance style that blends elements of ballet and modern. A lyrical dancer will use movements to express strong emotions such as love, joy, romance etc. The dancer often performs to music with lyrics as this serves as inspiration for the dancer's movements and expressions. Movements in lyrical dance are characterized by fluidity and grace, with the dancer flowing seamlessly from one movement to another. Leaps are high and turns are fluid and continuous.

Lyrical Jazz Dance

This style of Jazz is choreographed to Jazz music that enables a greater emotional connection. The elements and expression for Lyrical Jazz is a fusion between the dancer and the creative content of the music. Jazz dance techniques are to be the primary source of creativity in the choreography. Lyrical Jazz does not mean dancing to the LYRICS of the song or using the contemporary dance form in style, techniques and performance. There are many emotive and slower tempo pieces of Jazz music available to choose from that offer a wonderful platform and canvas to choreograph and create an original lyrical jazz dance solo or group piece.

3. Show Dance / Tap / Open

This category is best described as a high impact, dynamic dance with entertaining choreography, clear style, narrative and a cohesive theme. The choreographic creation must use dance techniques that bring show dance elements together to form a complete structured piece. A variety of styles that can be influenced by Show Dance Theatre, Film or Musical Concepts. The style and imagery of choreography must be appropriate for the dancers involved and executed with precision, powerful musicality and demonstrate clear creative performance values. (Bollywood Dance would fit into this category as well as Tap dance).

4. Contemporary / Modern

Contemporary Dance has established and recognized dance styles and techniques which are based on renowned expression of choreographers including: - Graham, Limon, Cunningham and Horton, Ailey and more in trend today Wayne McGregor or Rambert. The Contemporary Dance class should incorporate and convey a collection of methods and techniques that are founded within the techniques of ballet, modern dance or postmodern dance. Contemporary dance permits a greater range of movement that may not adhere to the strict body lines of classical ballet. The images, ideas and emotions of the dance can be set to a variety of sounds, from music to the spoken word or even silence if in keeping with the theme of the dance. The choreography should convey a story based on the text or a song, or possibly have a story line that conveys an emotion and specific expression. The dancer performing in the Contemporary dance class must have a high level of understanding of the physicality and techniques that are required to be viewed and judged fairly.

Please Note: Contemporary Dance is not to be confused with Lyrical Dance. The elements required for the Contemporary dance class, must be visible within the creative dance and the technique of the dancer performing.

5. Street Dance / Commercial Dance

Street Dance includes a wide range of styles made popular in the USA and has now become an international and popular form of dance expression for the youth culture, which has now crossed over into more mainstream Commercial dance styles. This class requires the dance to express the specific dance styles, but offer an overall concept, theme and direction that expresses creative ideas, clever dance imagery and stylized choreography.

Please Note: For this class, music choices should not contain swearing or bad language, the suggestion of guns or death. The choreography and visual aspect must be age appropriate for the overall competition.

Commercial dance encompasses a variety of styles. This can include jazz, hip hop and contemporary. It is the type of dance seen in music videos, advertising campaigns, TV as in MTV and films.

6. Dance Film

Any style of dance, with any number of dancers in a dance film (also known as screen dance). A film in which dance is used to reveal the central themes of the film, whether these themes be connected to narrative or story, states of being, or more experimental and formal concerns. In such films, the creation of choreography typically exists only in film or video. Edits are permitted for these dance films only.
